Dear Colleagues,

We enclose an ambitious and thought-provoking programme for the **Fourth World Forum on Energy Regulation (WFER IV)**, which will take place on **October 18-21, 2009 at the Athenaeum Inter-Continental Hotel in Athens, Greece.**

The current global economic downturn and ever-present security of supply concerns highlight the need for strengthened international dialogue and cooperation in the energy sector. The WFER IV is a unique opportunity to gather members of the 'energy world' to discuss issues of global relevance; sharing experiences and knowledge on a wide range of energy-related matters.

The WFER IV builds upon the themes and key findings of the past three Fora (Montreal, 2000, Rome, 2003 and Washington, 2006), and will address new trends in energy regulation, recent developments in the energy industry and a range of regional and global issues. It aims to bring together more than 1,000 top-level energy stakeholders from across the globe.

The three day programme will feature heads of regulatory agencies, government officials, presidents and CEOs from utilities, transmission system operators and financial, consumer rights and other international institutions as well as other key decision-makers and energy sector stakeholders from across the world.

We look forward to your support of the World Forum on Energy Regulation IV and to seeing you in Athens in October 2009.

Sincerely

George Koutzoukos
Chairman WFER IV Secretariat

Lord Mogg
President CEER

The key themes of the Forum are:

- Reliability and security of supply (Track A)
- The role of regulators in responding to climate change (Track B)
- Competitiveness and affordability (Track C)
- The independence, powers, responsibilities, best practices and training of regulators (Track D)

SUNDAY 18 OCTOBER

09:00-20:00 **REGISTRATION**

20:00-23:00 **WELCOME RECEPTION**

09:00-09:10 Welcome Address

09:10-09:35 **Keynote Address: WFER IV themes and topics**
Lord Mogg,
President, Council of European Energy Regulators (CEER)

09:35-09:45 **WFER IV Official Opening**

09:45-11:00 **PLENARY SESSION 1**

TRACK A : Security and reliability of supply through competitive energy markets

- Global energy market prospects and challenges
- Integration of liberalised energy markets and security of supply
- Balancing public interests (security and reliability of supply, climate change, affordability) and reliance on markets
- Energy project financing in the developed and developing world

11:00-11:30 Coffee Break

11:30-12:45 **PLENARY SESSION 2**

TRACK B : Regulators' role for a market response to the reduction of CO₂ emissions

- Global view of greenhouse gas emissions and climate change
- The economics of climate change
- Industry's role in curbing climate change
- The regulators' role in integrating non-market related environmental goals in energy markets

12:45-14:30 Lunch

14:30-16:00 **CONCURRENT SESSIONS**

TRACK A - SESSION 1: Market conditions in developed countries that attract infrastructure investments

- The role of regulators and the importance of regulatory stability
- Infrastructure expansion in competitive energy markets and energy supply reliability
- Infrastructure investments and cost allocation in the context of regional energy markets
- Market mechanisms that ensure efficient infrastructure investments
- Financing energy infrastructure of regional importance

TRACK B - SESSION 2: Efficiency of CO₂ emission reduction mechanisms

- Emission trading versus carbon taxes and sectoral approaches: targets, allowances, free riders
- Price volatility, reporting, abuses
- International experiences
- The post-2012 electricity utilities strategy (market opportunities, technological developments and consumer behaviour)

TRACK C - SESSION 3: Universal service in a climate of increasing energy costs and environmental constraints

- Balancing environmental goals and affordability
- Social consequences of increasing energy costs and environmental constraints in competitive energy markets
- The interplay between environmental policies, retail competition and universal service
- Financing sustainable energy as a means for economic growth and energy access facilitation
- Carbon output reduction and its cost implications for energy users

16:00-16:30 Coffee Break

16:30-18:00 **CONCURRENT SESSIONS**

TRACK A - SESSION 4: Gas market regulation: the role of LNG

- Liquefied natural gas, a key factor for security of supply
- Incentives for the increased utilisation and expansion of LNG infrastructure
- Market barriers in LNG trade
- Portfolio suppliers
- Spot LNG trading

TRACK B - SESSION 5: The integration of energy efficiency investments and demand-side management in competitive markets

- Time of use energy pricing and demand management
- Financing energy efficiency and demand-side management programmes in developing countries
- The utilities' approach to demand-side management
- Regulation, monitoring and verification issues
- White certificate trading

TRACK D - SESSION 6: Best practices for regulators

- Key elements of the regulatory process
- Transparency and appeals mechanisms
- Scope and methods to assess the impact of regulatory decisions
- Regulation: as an interactive process between regulators and stakeholders
- Regulatory benchmarking

20:00-24:00 Social Event/Cocktail Reception

TUESDAY 20 OCTOBER

08:30-09:45 KEYNOTE SESSION 1

TRACK A : Gas markets developments and prospects

- Regional and global gas market overview (supply and demand, infrastructure bottlenecks)
- Gas market globalisation, security of supply, hub development and the expansion of the LNG spot market
- Climate change policy and its effect on market power in gas
- Producer countries' response to the structural changes of the gas industry

09:45-11:00 PLENARY SESSION 3

TRACK C : Competitiveness and affordability

- The collective responsibility of customers, government, industry and regulators to integrate new energy sources and encourage energy efficiency in competitive markets
- Access to affordable energy services
- Transparency and consumer rights protection

11:00-11:30 Coffee Break

11:30-13:00 CONCURRENT SESSIONS

TRACK A - SESSION 7: Incentives for infrastructure investments in developing countries

- The impact of regulatory governance and tariff frameworks on electricity and gas infrastructure investments
- Regional integration to create dynamic energy markets that attract infrastructure investments
- Financing energy infrastructure

TRACK B - SESSION 8: Massive deployment of renewable energy sources, market efficiency, system security and reliability

- RES support policies
- Efficient integration of renewables in the competitive electricity market
- System - related issues

TRACK C - SESSION 9: Regulatory issues of importance to residential and small customers

- Vulnerable and rural customers - Fuel poverty
- Transparency, information availability, supplier switching
- Domestic and small consumer rights, complaints and appeals
- Customer policies of retail suppliers

13:00-14:30 Lunch

14:30-15:45 KEYNOTE SESSION 2

TRACK A : Linking load to market mechanisms: smart grids, advanced metering, real-time pricing

- Smart technologies in the pursuit of a sustainable energy-environment: implementation roadmaps
- Financial resources and required regulatory frameworks
- Challenges in a national or regional market context

15:45-16:15 Coffee Break

16:15-17:45 CONCURRENT SESSIONS

Venue Information

The WFER IV venue is the Athenaemum InterContinental Hotel in Athens, a 5* rated hotel renovated in 2008.

The Hotel is the largest meeting and banqueting facilities in Greece and has served as a host to several large scale conferences. For the purposes of the WFER IV, the Athenaemum Ballroom that can sit up to 2000 participants has been reserved for the Opening, Plenary and Keynote sessions and also for the Conference Conclusion. The ballroom will be split into three independent halls to accommodate the concurrent sessions. An exhibition space and a number of additional smaller rooms to allow for side events, meetings among participants, speaker preparation etc have been reserved.

Simultaneous interpretation (French, Spanish, Russian, Greek) will be provided during all sessions.

Sponsorship

A detailed sponsorship package offering a number of sponsorship opportunities is available. For more information please contact worldforumiv@rae.gr

Networking Opportunities

In addition to the ambitious and thought provoking three day programme, the WFER IV will offer delegates ample networking opportunities during the Welcome and Farewell Receptions, the WFER IV lunches and the Social Event and Official Dinner planned for the evenings of 19th and 20th of October.

An exclusive cultural event held at the Athens Concert Hall followed by a Cocktail reception will be offered to delegates and accompanying persons during the evening of Monday 19th October.

Since it opened its doors to the public in 1991, the Athens Concert Hall has been regarded as one of the most comprehensive culture centres in Europe. Its superb acoustics has been acclaimed both by the public and by renowned performers of the music and art world. The Athens Concert Hall has welcomed top class artists, music ensembles, composers, conductors and performers in an artistic trajectory that has left its mark in the country's culture scene. The Athens Concert Hall attracts thousands of people who come to enjoy its many art events and performances.

The WFER IV Official Dinner will be served at a spectacular seaside location near Athens on Tuesday 20th October.

PROGRAMME ANNOUNCEMENT

Who should attend WFER IV

- Regulators
- Government Officials and Policy Makers
- Industry Representatives
- Consumer Rights Associations
- Non-Governmental Organisations
- Academics and Consultants
- Financial Institutions
- Investors/Stockholders
- Energy Professionals
- Law Firms
- Environmental experts
- Journalists

Why you should attend WFER IV

- To learn what policy makers and regulators are doing to encourage energy investments and enhance security of supply and affordability
- To discuss recent developments in the energy industry, new trends in energy regulation and selected sectoral, regional and global issues
- To consider the interplay between climate change policies and competitive markets
- To gain knowledge from other countries' best experiences and lessons learned
- To further educate yourself in international energy regulation
- To relay your knowledge and experience to other countries
